

## **SIC 12 - family discount**

A family discount is granted to multi-person households as long as the insurance contracts of at least two people are combined. In this case, all correspondence is sent to the family contact person designated in the policy. Should insured persons of full age not agree to the contact person having access to their data, they must inform KLuG that their contract should be managed separately. In the event of overdue payments, KLuG reserves the right to continue the contracts of insured persons of full age separately. A separation can lead to the cancellation of the family discount.
